BENEFITS

◆ Exclusive to Future Line

- Superior quality and durability from fully welded aluminum compared to our competitors' lower quality welded versions
- Weight is further reduced by the crossmemberless design
- The underside doesn't collect road and job site debris because of the crossmemberless design
- Added frame protection plus reduced vibration and noise because of the proprietary EX2 long sill rubber cushion insert
- Electric tailgate release provides convenience and safety
- Reduced fuel costs from bodies that weight 50% less than steel

2-3 YARD DUMP BODIES

12" Sides & 24" Tailgate

| Model # | Dimensions |
|------------|-------------|
| AMM0996612 | 9'4" X 96" |
